## About Us

Founded in 2004 with a vision to serve the Marine & Offshore Industry, PROFEN has today established itself among one of the leading Stockists, Distributors and Suppliers to the Marine & Offshore, Oil & Gas, Power Generation, Aluminum, Metal and other large & small scale Industries.

### EXPERIENCE

With over 18 years of experience, market research and with some of the UAE's leading Government & Private companies as our clients we offer an unmatched understanding of our field.

### RELATIONS & CREDIBILITY

Our Clients are our biggest Strength. The name PROFEN has itself been derived from the words PROFESSIONAL ENGINEERS, stating that we have built our business connections on Professionalism, integrity and honesty, ensuring that our relationship last for years. We actively seek opportunities for both clients and suppliers often going far beyond the traditional means of networking. Over the years we have received numerous appreciation and supplier certificates & awards from top government companies.

### WHY CHOOSE US?

You name it and we have it!!! With over 35 reputed brands under the group the ability to supply products from over 450 brands from across the globe including Europe, US, UK, Korea, Singapore, Taiwan, India we can provide cost-effective and time-saving solutions to our clients.

PROFEN has it's branches and offices in Dubai, Abu Dhabi, Sharjah, USA, UK and India which helps us in successfully catering your requirements.

### POSITIVE WORD OF MOUTH

More than 80% of our clientele is derived from word of mouth referrals. Our quality of work and customer service is second to none and is proven by the fact that our customers have the belief and confidence to refer us to others. This statistic alone sets us apart from our competitors. In a competitive market, it is obvious that the one who provides the best services and the most economical and time-efficient solutions always excels. We understand this better than anyone else! That is why our experienced production and service technicians and a dedicated team of Sales Managers make sure that you get the most attention and we give you the best support. Our Customer Support and after-sales Service team is committed to provide the fastest and most efficient service in the business with fastest delivery schedules.

## Ventilation Fans

### COPPUS®

Portable Air, Water, Electric  
Driven Ventilators and Fans

Coppus - Portable Ventilators – is recognized as one of the world leaders in providing reliable & safe ventilation solutions. With a range of OHSAS approved confined space ventilation & cooling products it provides a fresh air supply in hazardous locations and successfully meets the safety demands of refineries, chemicals plants, steel mills, paper mills, power plants, fabrication industries and a host of other industries including construction, railroads, airlines, shipbuilding, marine, processing plants by improving safer working environments.

## Mist Cooling Principle

Profen Group has become a major contributor in the recent and ongoing developments in oil and gas, infrastructural setup in the UAE and other GCC countries. Having professional experience. Knowledge of local industrial requirements, practices and services we offered the best possible way in enhancing Outdoor Cooling, providing our very own professional products and services. We have Promist Cool as our trademark brand for Outdoor Cooling. PROMIST Cool specialty lies in misting, fog and humidification systems that provide you with a technology that helps control or enhance environments.

[www.promistcool.com](http://www.promistcool.com)

## Mist Cooling Principle

Mist Cooling is done by forcing water with high pressure pump through our specially designed misting nozzles. We create a fog made by ultra fine water droplets with an average size of less than 10 microns. These tiny water droplets quickly absorb the energy (heat) present in the environment and evaporate, becoming water vapor (gas). The energy (heat) used to change the water to gas is eliminated from the environment, hence the air and Environment is cooled.

# PROFEN

(PROFESSIONAL ENGINEERS)  
GROUP OF COMPANIES

## Greenhouse Cooling & Humidification

Promist Misting systems play an important role in the greenhouse climatic control. Misting systems are also used with enormous advantages to keep the right temperature and humidity in the environment, under conditions of forced or natural ventilation. In summertime the quick evaporation of the mist will cool the greenhouse due to the principle of evaporative cooling, meanwhile it humidifies the environment in case of low relative humidity.

## Warehouse Cooling

A cool work environment increases productivity and morale. Whether inside a warehouse or on a loading dock, the Promist Misting System's new fine mist nozzles and innovative fan-cooling products create the most effective and efficient evaporative cooling systems on the market.

## Dust Suppression

Our Misting systems create a high concentration of ultra thin water droplets with an average diameter of 10 microns (with the possibility to add surfactants in some cases), having the ability to capture and suppress PM10 and smaller particles. Water droplets instantly blanket suspended dust particles, increasing their weight and driving them to the ground.

## Welding Electrodes

**KOTA ELECTRODES** has a large manufacturing capacity, high quality standards and technology comparable to the best quality products both at home and in the international market. We furnish comprehensive line of arc welding electrodes. The range includes a wide selection of Mild Steel Electrodes, Medium & High Tensile Steel Electrodes, Creep Resistant Steel Electrodes, Nickel Steel, Stainless Steel, Hard Surfacing, Cast Iron, Cutting & Gauging Electrodes.

### WELDMETAL-E6013-S (A Premium product)

**Applications:** Railway Wagons, Boilers, Fire Boxes, Auto Bodies, Ship Building Structural Works, Machine Base & machinery Construction Pipe Lines, Storage Tanks, Bridges, Pressure Vessels Steels Building Construction Works, Mild Steel Furniture etc.

### WELDMETAL-E7018 (A Premium product)

**Applications:** Railway Wagons, Boilers, Fire Boxes, Auto Bodies, Ship Building Structural Works, Machine Base & machinery Construction Pipe Lines, Storage Tanks, Bridges, Pressure Vessels Steels Building Construction Works, Mild Steel Furniture etc.

### WELDMETAL-E308L (A Premium product)

**Applications:** Suitable for Welding of AISI Grades Steel as 308L Used as Stainless Steel to Mild Steel and also for Extra low Carbon Stainless Steel. Pipework, Vessels, Tanks, Forgings & Castings in The Chemical Petro Chemical, Power & Pharmaceutical Industries, Food Drink & Dairy Plant, Paper Processing Plant etc.

### WELDMETAL-E309L (A Premium product)

**Applications:** Suitable for welding of AISI grades steel as 309L type, straight chrome steel, and welding of Clad side of stainless clad steels, welding of similar and Dis-Similar steel eg. stainless steel to mild steel and also for extra low carbon stainless steel

### WELDMETAL-E316L (A Premium product)

**Applications:** Suitable for welding of AISI grades steel as 316L, 317L type or equivalent grade and also welding for low carbon, high molybdenum Bearing Austenitic stainless steel. Suitable for chemical, Textile, milk plants, fertilizer plant, oil plant and Paints Industries Plants.

### WELDMETAL-CAST IRON (A Premium product)

**Applications:** Is lightly suitable for welding of cast iron, cast iron machine parts, cast iron machines equipments, and all type of general reclamation or repairing works where machinability of the weld is not essential.

### WELDMETAL-MIG-70S-6 (A Premium product)

**Applications:** Copper Coated Manganese – Silicon Bearing Wire for MIG Welding. Its Gives Stable Arc and Minimum Spatter Under Optimum Welding Conditions. It is Design for all Positional Welding of Structural Steels Pressure Vessels, Ship Building, Civil Construction, Automotive, Industrial and General Fabrication.
